

PENNSBURY
LAND TRUST

presents:

Back yards, streams and rivers, and
drinking water quality

Ever wondered about how contaminants get into our drinking water?

What are the costs of drinking water treatment?

**How can citizens, municipalities, and land managers help to reduce
contamination risks?**

Dave B. Arscott, Ph.D.

Assistant Director, Research Scientist
Stroud Water Research Center

Thursday, April 8, 2010, 7:30 p.m.
